Preface

The 22nd International Conference on User Modeling, Adaptation, and Personalization (UMAP 2014) was held in Aalborg, Denmark, on July 7-11 2014. UMAP 2014 late-breaking results contain original and unpublished accounts of innovative research ideas, preliminary results, industry showcases, and system prototypes, addressing both the theory and practice of User Modeling, Adaptation and Personalization. In addition, papers introducing recently started research projects or summarizing project results are included as well.

A total of 6 papers were presented as late-breaking results. Among them, there were five posters and 1 demo. A total of fifteen submissions were received, 13 poster submissions and 2 demo submissions. Each of them was reviewed by at least three members of the Program Committee. Submissions were assessed based on their originality and novelty, potential contribution to the research field, potential impact in particular use cases, and the usefulness of presented experiences, as well as their overall readability.

We thank all authors for submitting and presenting their works, and members of the Program Committee for providing their time and expertise for reviewing and selecting the papers. All their efforts made UMAP 2014 late-breaking results possible.

Program Committee

Alejandro Bellogín  Universidad Autónoma de Madrid, Spain
Shlomo Berkovsky  NICTA, Australia
Pradipta Biswas  Wolfson College, Cambridge University, UK
Federica Cena  Department of Computer Science, University of Torino, Italy
Mihaela Cocea  School of Computing, University of Portsmouth, UK
Elizabeth M. Daly  IBM Research, Ireland
Vania Dimitrova  School of Computing, University of Leeds, UK
Eelco Herder  L3S Research Center, Germany
Jesse Hoey  University of Waterloo, Canada
Dietmar Jannach  TU Dortmund, Germany
Bart Knijnenburg  University of California, Irvine, USA
Nan Li  Carnegie Mellon University, USA
Pasquale Lops  University of Bari, Italy
Collin Lynch  University of Pittsburgh, USA
Gordon McCalla  University of Saskatchewan, Canada
Tanja Mitrovic  University of Canterbury, Christchurch, New Zealand
Alan Said  TU Delft, The Netherlands
Olga C. Santos  aDeNu Research Group (UNED), Spain
Ben Steichen  University of British Columbia, Canada
Jie Zhang  Nanyang Technological University, Singapore
