28th International Workshop on Description Logics

Athens, Greece
7–10 June 2015
Preface

The International Workshop on Description Logics is the main annual event of the Description Logic research community. It is the forum at which those interested in description logics, from both academia and industry, meet to discuss ideas, share information, and compare experiences. The workshop explicitly welcomes submissions from researchers that are new to the area and provides quality feedback via peer-reviewing, while at the same time being of an "inclusive" nature with a very high acceptance rate. There are only informal (electronic) proceedings and inclusion of a paper there is not supposed to preclude its publication at conferences. Further information can be found on the DL Web pages at http://dl.kr.org/.

This volume of informal proceedings contains the papers presented at the 28th International Workshop on Description Logics (DL 2015) held on June 6-9, 2015 in Athens (Greece). This year there were 68 submissions, divided among full papers presenting original research, and extended abstracts (of at most 3 pages). Submissions have been judged solely based upon their content and quality, and the type of submission had no bearing on the decision between long oral, short oral and poster presentation. Each submission was reviewed by 3 program committee members or additional reviewers recruited by the PC. In the spirit of inclusiveness, the committee decided to accept 60 papers, among them 37 as long and short oral presentations and 23 as poster presentations. We thank all program committee members and additional reviewers for their invaluable effort.

The program also included 3 invited talks, which were given by Carsten Lutz, Axel Polleres, and Maarten de Rijke. The abstracts of these talks are included in this volume.

We also gratefully acknowledge the Artificial Intelligence Journal and the Foundation for Principles of Knowledge Representation and Reasoning (KR Inc.) for financial support and EasyChair for providing a convenient and efficient platform for preparing the program. Last but not least we thank all authors and participants of DL 2015.

## Invited Talks

- Query Rewriting Beyond DL-Lite .................. Carsten Lutz 1
- Integrating Open Data: (How) Can Description Logics Help me? .... Axel Polleres 7
- Entity-oriented Search Engine Result Pages .................. Maarten de Rijke 8

## Oral Presentations

- DL-Lite and Conjunctive Queries Extended by Optional Matching ...... Shqiponja Ahmetaj, Wolfgang Fischl, Reinhard Pichler, Mantas Simkus and Sebastian Skritek 9
- Dealing with Inconsistencies due to Class Disjointness in SPARQL Update Albin Ahmeti, Diego Calvanese, Axel Polleres and Vadim Savenkov 13
- Interval Temporal Description Logics ............................. Alessandro Artale, Roman Kontchakov, Vladislav Ryzhikov and Michael Zakharyaschev 25
- Dismatching and Local Disunification in EL (Extended Abstract) Franz Baader, Stefan Borgwardt and Barbara Morawska 30
- Extending Consequence-Based Reasoning to SHIQ ................ Andrew Bate, Boris Motik, Bernardo Cuenca Grau, František Simančík and Ian Horrocks 34
- Explaining Query Answers under Inconsistency-Tolerant Semantics over Description Logic Knowledge Bases (Extended Abstract) Meghyn Bienvenu, Camille Bourgaux and François Gousdoué 47
- Combined Complexity of Answering Tree-like Queries in OWL 2 QL Meghyn Bienvenu, Stanislav Kikot and Vladimir Podolskii 51
- Query-based comparison of OBDA specifications ................ Meghyn Bienvenu and Riccardo Rosati 55
- Schema-Agnostic Query Rewriting for OWL QL ................... Stefan Bischof, Markus Krötzsch, Axel Polleres and Sebastian Rudolph 67
- Singular Referring Expressions in Conjunctive Query Answers: the case for a CFD DL Dialect .................................. Alex Borgida, David Toman and Grant Weddell 71
