Foreword

This volume contains the papers presented at the 12th International Workshop on Uncertainty Reasoning for the Semantic Web (URSW 2016), to be held as a part of the 15th International Semantic Web Conference (ISWC 2016) in Kobe, Japan, October 17, 2016. 5 technical papers and 1 short paper were accepted at URSW 2016. All the papers were selected in a rigorous reviewing process, where each paper was reviewed by two or three program committee members.

The International Semantic Web Conference is a major international forum for presenting visionary research on all aspects of the Semantic Web. The International Workshop on Uncertainty Reasoning for the Semantic Web provides an opportunity for collaboration and cross-fertilization between the uncertainty reasoning community and the Semantic Web community.

We wish to thank all authors who submitted papers and all workshops participants for fruitful discussions. We would like to thank the program committee members for their timely expertise in carefully reviewing the submissions.
