

**Proceedings of Doctoral Consortium**  
**The 15th International Conference on Web-based**  
**Learning (ICWL 2016)**  
**Rome, Italy, October 28, 2016**

The proceedings of the Doctoral Consortium held in conjunction with the 15-th International Conference on Web-Based Learning collect the proposals submitted by PhD students, and an introduction by the Doctoral Consortium co-chairs. This introduction provides a unifying frame for the works presented, and underlines the main comments arising during the oral presentation. This latter extension to the usual editorial format of DC proceedings aims at proposing a new way to further increase the final information gained from this kind of meetings.
