Preface

This volume contains the papers presented at LD4IE2017: 5th international Workshop on Linked Data for Information Extraction held on October 22nd, 2017 in Vienna, Austria, in conjunction with the 16th International Semantic Web Conference (ISWC2017). Additional details on the LD4IE workshop series can be found at https://w3id.org/ld4ie. The workshop this year features 6 full papers.

The invited speaker for LD4IE2017 is Dr. Vanessa Lopez, a research scientist at IBM’s Dublin Research Laboratory in Ireland since 2012. Vanessa has several years of experience envisioning and developing innovative solutions for harnessing urban and web data as knowledge, through a combination of natural language, semantics / Linked Data and learning approaches to capture, integrate, enrich, search, explore and query data in a natural way.

Her talk at LD4IE2017 is titled “Capturing Social and Clinical Knowledge for Personalised Care”.
