

REIT-Spring 2018

Preface

Institute of Radioelectronics & Information Technologies of Ural Federal University organizes 3rd International Workshop on Radio Electronics & Information Technologies (REIT-Spring 2018) from a series of seminars.

The main objective of REIT is to present the latest researches and results of scientists related to the field of Mathematical modeling & Information Technology, Digital Signal & Image Processing, Distributed & Parallel Computing, to bring together researches and practitioners working in these fields, and to share new ideas and results face to face. The advances in computer science and information technology were used to solve applied problems from areas of Mathematical Physics and Radioelectronics.

The Workshop was held on March 14, 2018 at Institute of Radioelectronics & Information Technologies of Ural Federal University in Yekaterinburg, Russia. We have received 24 submissions; each of them has been reviewed by at least two Programme Committee members. The Programme Committee have decided to accept 16 papers. The papers and presentations are available on the official website of REIT-Spring 2018 Workshop (<http://reit-rtf.ru>).

We would like to thank the authors for submitting their papers and the members of the Programme Committee for their efforts to provide exhaustive reviews.

14 March 2018
Yekaterinburg, Russia

Elena N. Akimova
Andrey V. Sosnovsky
Roman A. Gareev

Program Committee

Prof. Sergey N. Shabunin	Chairman of the Program Committee, Yeltsin Ural Federal University, Yekaterinburg, Russia
Prof. Elena N. Akimova	Vice-chairman of the Program Committee, Krasovskii Institute of Mathematics and Mechanics / Yeltsin Ural Federal University, Yekaterinburg, Russia
Prof. Peter S. Martyshko	Corresponding member of RAS, Bulashevich Institute of Geophysics / Yeltsin Ural Federal University, Yekaterinburg, Russia
Prof. Konstantin K. Vasiliev	Corresponding Member of AS Tatarstan, Ulyanovsk State Technical University, Ulyanovsk, Russia
Prof. zw. Yevgeniy F. Ochin	Czł. koresp. RANP, Maritime University of Szczecin, Szczecin, Poland
Prof. Tatiana V. Avdeenko	Novosibirsk State Technical University, Novosibirsk, Russia
Prof. Peter I. Balk	Institute of Applied Geodesy, Berlin, Germany
Prof. Dmitriy B. Berg	Blasewitzer Ring 46, Berlin, Germany
Prof. Leonid G. Dorosinskiy	Yeltsin Ural Federal University, Yekaterinburg, Russia
Prof. Alexey A. Kalmykov	Yeltsin Ural Federal University, Yekaterinburg, Russia
Prof. Natan Kleeorin	Ben-Gurion University of the Negev, Beer-Sheva, Israel
Prof. Vladislav Ya. Noskov	Yeltsin Ural Federal University, Yekaterinburg, Russia
Prof. Yuri N. Parshin	Ryazan State Radio Engineering University, Ryazan, Russia
Prof. Sergey V. Porshnev	Yeltsin Ural Federal University, Yekaterinburg, Russia
Dr. Konstantin A. Aksyonov	Yeltsin Ural Federal University, Yekaterinburg, Russia
Dr. Nikolay S. Knyazev	Yeltsin Ural Federal University, Yekaterinburg, Russia
Dr. Wang Kai	Institute of Quantitative and Technical Economics, Beijing, China

Organizing Committee

Dr. Vladimir E. Misilov	Chairman of Organizing Committee, Krasovskii Institute of Mathematics and Mechanics / Yeltsin Ural Federal University, Yekaterinburg, Russia
Dr. Sergey I Kumkov	Krasovskii Institute of Mathematics and Mechanics / Yeltsin Ural Federal University, Yekaterinburg, Russia
Alexander G. Tsidaev	Bulashevich Institute of Geophysics / Yeltsin Ural Federal University, Yekaterinburg, Russia
Andrey V. Sosnovsky	Yeltsin Ural Federal University, Yekaterinburg, Russia
Roman A. Gareev	Yeltsin Ural Federal University, Yekaterinburg, Russia

Table of Contents

Memory Efficient Algorithm for Solving the Inverse Problem of Finding a Density in a Curvilinear Layer	1
<i>Elena N. Akimova, Vladimir E. Misilov, Maxim S. Arguchinsky</i>	
Rules for Construction of Simulation Models for Production Processes Optimization	9
<i>Konstantin A. Aksyonov, Anna S. Antonova, Olga P. Aksyonova, Wang Kai</i>	
Image Models and Segmentation Algorithms Based on Discrete Doubly Stochastic Autoregressions with Multiple Roots of Characteristic Equations	19
<i>Nikita A. Andriyanov, Yuliya N. Gavrilina</i>	
Digital Model of Reflected Signals for a Radar Scene Simulation	29
<i>Alexander S. Bokov, Artem K. Sorokin, Andrey E. Smertin, Evgeniy F. Zapolskikh, Vladimir G. Vazhenin</i>	
Chromium Distribution Forecasting in Subarctic Noyabrsk Using Cokriging, Generalized Regression Neural Network, Multilayer Perceptron, and Hybrid Technique	39
<i>Alexander G. Buevich, Alexander P. Sergeev, Andrey V. Shichkin, Alexandra I. Kosachenko, Anastasia S. Moskaleva</i>	
Modeling the Clutter Reflection Suppression Algorithm In Synthetic-Aperture Radar	49
<i>Leonid G. Dorosinskiy, Andrew A. Kurganski</i>	
Linear Objects Detection on SAR Images	58
<i>Oleg Yu. Ivanov</i>	
Simulation of the Near-field of a Ferrite Antenna	66
<i>Alexey A. Kalmykov, Kirill D. Shaidurov, Stanislav O. Polyakov</i>	
New Information Technology on the Basis of Interval Analysis: Estimation of Aluminum Corrosion Parameters in Real Electrochemical Process	76
<i>Sergey I. Kumkov, Milan Hladík, Ludmila A. Yolshina, Varvara A. Yolshina</i>	
Spectral Reflection Prediction by Artificial Neural Network	86
<i>Oleg B. Milder, Dmitry A. Tarasov</i>	

Performance-Effective Algorithm for Solving Large-Scale Forward Gravity Problem for Elliptical Objects	96
<i>Petr S. Martyshko, Igor V. Ladovskii,</i>	
<i>Denis D. Byzov, Alexander I. Chernoskutov</i>	
Mathematical Modeling of the Autodyne Signal Characteristics at Strong Reflected Emission	103
<i>Vladislav Ya. Noskov, Kirill A. Ignatkov, Andrey P. Chupakhin</i>	
Optimization of Processing the Large Data Stream in Web-interface . . .	113
<i>Nataliya V. Papulovskaya, Artem A. Rapoport</i>	
Signal Processing under Presence of Low Frequency Noise in the Low Speed Data Channel	123
<i>Alexander Yu. Parshin</i>	
An Algorithm for Exact Geometric Search of Polynomials Complex Roots	130
<i>Sergey P. Trofimov</i>	
Feature Enhancement of InSAR Data Products Using Coherence Maps . .	140
<i>Nina S. Vinogradova, Andrey V. Sosnovsky</i>
