

Message from the Editors

The Third Conference on Software Engineering and Information Management (SEIM-2018) opens its doors to young researchers and practitioners in different areas of computer science and software engineering, providing an opportunity to present their research, discuss state-of-the-art technology and engage in useful networking. As before, we consider SEIM to mainly focus on researchers who are just starting out their scientific careers, and hope to ease their introduction to the conference process. On the other hand, SEIM might also be of interest to more experienced researchers, who are aimed at sharing their research with a wider scientific community. The conference welcomes submissions on a wide range of topics, including but not limited to:

- Algorithms and data structures
- Big data
- Cloud systems
- Coding theory
- Compilers
- Crowdsourcing
- Data storage and processing
- Development management
- Digital signal processing
- Distributed systems
- E-commerce / e-government
- Empirical software engineering
- High-performance computing
- Information retrieval
- Information security
- Intelligent data analysis
- Internet of Things
- Machine learning
- Mobile systems
- Modelling
- Natural language processing
- Networks and telecommunications
- (Non-)relational databases
- Operating systems
- Programming languages
- Recommendation systems
- Robotics
- Semantic web
- Social networks
- Software analysis
- Software testing
- Software verification
- Software virtualization
- Software-defined networks
- Theoretical computer science
- Visual languages

This year we received 43 papers, each reviewed by at least 3 members of the Program Committee, of which 8 were selected for publication in CEUR-WS.org, 7 — for indexing in RSCI, and 1 was accepted as talk-only to allow the authors to receive valuable feedback about their research. We would like to thank the members of our Program Committee for their continuous work and contribution to the success of our conference.

These proceedings include the SEIM-2018 papers, which were selected by the Program Committee for publication in CEUR-WS.org. These papers passed not only the original review procedure, but also an additional round of post-review with the conference feedback. We thank the authors for their submissions to SEIM 2018 and hope to see them in the future.

Furthermore, we would also like to thank Tatiana Mironova, Sergey Zhnevchuk and Svyatoslav Mikhailov for their great help in organizing the conference, Computer Science Center for hosting the event, and JetBrains Research for their overall support. The additional information about the SEIM conference series can be found on the conference website at: <http://2018.seim-conf.org/>

Yurii Litvinov, Marat Akhin, Boris Novikov, Vladimir Itsykson
Editors

SEIM 2018 Organization

The conference was organized jointly with Computer Science Center and supported by JetBrains Research.

Steering Committee

Dmitry Bulychev / St. Petersburg State University
Vladimir Itsykson / St. Petersburg Polytechnic University
Andrey Ivanov / JetBrains
Iakov Kirilenko / St. Petersburg State University
Kirill Krinkin / St. Petersburg Electrotechnical University
Boris Novikov / St. Petersburg State University

Program Committee Chairs

Yurii Litvinov / St. Petersburg State University
Marat Akhin / St. Petersburg Polytechnic University

Program Committee

Mikhail Belyaev / St. Petersburg Polytechnic University
Daniil Berezun / JetBrains, St. Petersburg State University
Natalia Bogach / St. Petersburg Polytechnic University
Timofey Bryksin / St. Petersburg State University
Dmitry Bugaichenko / St. Petersburg State University
Dmitry Boulytchev / St. Petersburg State University
Ekaterina Verbitskaya / St. Petersburg State University
Nikolay Vyahhi / St. Petersburg Academic University
Mikhail Glukhikh / JetBrains
Natalia Grafeeva / St. Petersburg State University
Dmitry Grigorev / St. Petersburg State University
Semyon Grigorev / St. Petersburg State University
Victoria Erofeeva / St. Petersburg State University
Yuriy Ivanskiy / Institute of Problems of ME RAS
Vladimir Itsykson / St. Petersburg Polytechnic University
Aleksandr Kapitonov / ITMO University
Iakov Kirilenko / St. Petersburg State University
Dmitry Kosarev / St. Petersburg State University
Kirill Krinkin / Open Source and Linux Lab
Svetlana Lazareva / Raidix
Dmitry Luciv / St. Petersburg State University

Igor Malyshev / St. Petersburg Polytechnic University
Elena Mikhailova / St. Petersburg State University
Mikhail Moiseev / Intel Corporation
Dmitry Mordvinov / St. Petersburg State University
Vyacheslav Nesterov / Dell EMC
Boris Novikov / St. Petersburg State University
Gennady Pekhimenko / Microsoft Research
Oleg Pliss / Oracle
Anton Podkopaev / St. Petersburg State University
Sergey Salishev / St. Petersburg State University
Elena Sivogolovko / Arcadia
Kirill Smirnov / St. Petersburg State University
Darja Solodovnikova / University of Latvia
Sergey Stupnikov / Institute of Informatics Problems RAS
Maksim Tkatchenko / Singapore Management University
Peter Trifonov / St. Petersburg Polytechnic University
Arthur Khanov / St. Petersburg State University
Dmitry Tsitelov / Devexperts
Mikhail Zymbler / South Ural State University
George Chernishev / St. Petersburg State University
Anna Yarygina / St. Petersburg State University
