Preface

This volume contains the papers presented at Ural-PDC 2018: 4th Ural Workshop on Parallel, Distributed, and Cloud Computing for Young Scientists (https://ural-pdc.org/2018/) held on November 15, 2018 in Yekaterinburg, Russia.

Ural-PDC is jointly organized by the Krasovskii Institute of Mathematics and Mechanics and the Ural Federal University. The aim of the workshop is to build the community of young researchers who work on modern problems in parallel, distributed, cloud computing, and to provide an academic forum that fosters them to share their ideas and results.

The key topics of interest are high-performance computing, distributed computing, cloud computing, Big Data processing, parallel computing education, and various applications of parallel and distributed computing. We have received 20 submissions, each of which has been reviewed by at least two program committee members. The committee decided to accept 14 regular papers and an invited paper on online encyclopaedia of numerical algorithms.

Last but not least, we are grateful to our program and organizing committees, who made the workshop possible.

December 12, 2018
Yekaterinburg, Russia

Dmitry Ustalov
Andrey Sozykin
Timofey Epanchintsev
Mikhail Chernoskutov
Table of Contents

Formal Model of Problems, Methods, Algorithms and Implementations in the Advancing AlgoWiki Open Encyclopedia .......................... 1
Andrey Popov, Dmitry Nikitenko, Alexander Antonov and Vladimir Vo-evodin

An Approach for Managing Hybrid Supercomputer Resources in Photogrammetric Tasks ............................................................. 12
Nikita Voinov, Ivan Selin, Pavel Drobintsev and Vsevolod Kotlyarov

Primary Automatic Analysis of the Entire Flow of Supercomputer Applications .............................................................................. 20
Pavel Shvets, Vadim Voevodin and Sergey Zhumatiy

Solving the Structural Inverse Gravimetry Problem in the Case of Multilayered Medium Using GPU ............................................. 33
Elena Akimova, Vladimir Misilov and Mural Sultanov

The Comparative Performance Analysis of Data-intensive Applications for IBM Minsky and Newell Systems ...................................... 40
Ilya Afanasyev

Parallel Substructuring Method With Memory Cost Limits .............. 50
Nikita Nedozhogin, Sergey Kopysov and Alexander Novikov

Parallel Partitioning Without Branching of Inner Boundaries for Arbitrary Domain ........................................................................ 60
Ilyas Kadyrov, Sergey Kopysov and Alexander Novikov

Development of Technique for Generating Adaptive Visualization of Three-dimensional Objects in the Cloud Educational Environment ...... 67
Vladimir Shardakov, Denis Parfenov, Irina Bolodurina, Igor Parfenov and Veronika Zaporozhko

Comparison of Approaches to the Analysis of Supercomputers Usage Efficiency by the Example of Lomonosov and Lomonosov-2 Supercomputers 76
Sergei Leonenkov and Sergey Zhumatiy

Exploring Trade-offs of Compiler Optimizations to Enable Performance Portability for Multi-level Memory Hierarchies ..................... 85
Aleksei Levchenko

Development and Research of an Adaptive Traffic Routing Algorithm Based on a Neural Network Approach for a Cloud System Oriented on Processing Big Data ...................................................... 98
Denis Parfenov, Irina Bolodurina and Vladimir Shardakov
Net-Centric Internet of Things for Industrial Machinery Workshop . . . . 112
Vsevolod Kotlyarov, Igor Chernorutsky, Pavel Drobintsev, Alexey Tolstoles, Irina Khrustaleva and Lina Kotlyarova

Skin Detection Technique Based on HSV Color Model and SLIC Segmentation Method .................................................. 123
Kseniia Nikolskaia, Nadezhda Ezhova, Anton Sinkov and Maksim Medvedev

A Web-based System for Launching Large Experiment Series on Supercomputers ....................................................... 136
Evgheniy Kuklin and Sergei Prudin

Computing Cost and Accounting Challenges for Octoshell Management System ....................................................... 146
Yulia Belkina and Dmitry Nikitenko

Program Committee

Alexander Bersenev  Krasovskii Institute of Mathematics and Mechanics / Ural Federal University
Mikhail Chernoskutov  Krasovskii Institute of Mathematics and Mechanics / Ural Federal University
Pavel Drobintsev  Peter the Great St.Petersburg Polytechnic University
Timofey Epanchintsev  Krasovskii Institute of Mathematics and Mechanics / Ural Federal University
Aleksandr Igumnov  Krasovskii Institute of Mathematics and Mechanics / Ural Federal University
Svyatoslav Khazin  Ural Federal University / Institute of Immunology and Physiology
Evgheiy Kuklin  Krasovskii Institute of Mathematics and Mechanics / Ural Federal University
Alina Latipova  South Ural State University
Dmitry Nikitenko  Lomonosov Moscow State University
Gleb Radchenko  South Ural State University
Yaroslav Salii  Krasovskii Institute of Mathematics and Mechanics / Ural Federal University
Alexander Semenov  JSC NICEVT
Vladislav Shchapov  Institute of Continuous Media Mechanics
Andrey Sozykin  Krasovskii Institute of Mathematics and Mechanics / Ural Federal University
Konstantin Ushenin  Ural Federal University
Dmitry Ustalov  University of Mannheim
Vladimir V. Voevodin  Research Computing Center of Lomonosov Moscow State University
Vladimir Zverev  Krasovskii Institute of Mathematics and Mechanics / Ural Federal University

Invited Reviewers

Alexander Agarkov  JSC NICEVT
Ameer B. A. Alauasam  South Ural State University
Timur Ismagilov  JSC NICEVT
Alexei Podkorytov  South Ural State University
