Editors' addresses:

Achim D. Brucker, University of Exeter, UK, a.brucker@exeter.ac.uk

Gwendal Daniel, Universitat Oberta de Catalunya, Spain, gdaniel@uoc.edu

Frédéric Jouault, Groupe ESEO, France, frederic.jouault@eseo.fr

Organizers

Achim D. Brucker
Gwendal Daniel
Frédéric Jouault

University of Exeter (UK)
Universitat Oberta de Catalunya (Spain)
Groupe ESEO (France)

Program Committee

Thomas Baar
Mira Balaban
Tricia Balfe
Domenico Bianculli
Achim D. Brucker
Jordi Cabot
Dan Chiorean
Robert Clariso
Tony Clark
Manuel Clavel
Birgit Demuth
Martin Gogolla
Adolfo Sánchez-Barbudo Herrera
Istvan Rath

Jan Oliver Ringert
Bernhard Rumpe
Frédéric Tuong
Edward Willink
Hao Wu
Steffen Zschaler

HTW Berlin (Germany)
Ben-Gurion University of the Negev (Israel)
Nomos Software (Ireland)
University of Luxembourg (Luxembourg)
University of Exeter (UK)
ICREA – Open University of Catalonia (Spain)
Babes-Bolyai University (Romania)
Universitat Oberta de Catalunya (Spain)
Aston University (UK)
Vietnamese-German University (Vietnam)
Technische Universität Dresden (Germany)
University of Bremen (Germany)
University of York (UK)
Budapest University of Technology and Economics (Hungary)
Tel Aviv University (Israel)
RWTH Aachen (Germany)
Université Paris-Saclay - LRI (France)
Willink Transformations Ltd. (UK)
Maynooth University (Ireland)
King's College London (UK)

Additional Reviewers

Nisha Desai

Khanh-Hoang Doan

Judith Michael

Lukas Netz

Louis Wachtmeister

Table of Contents

Preface	1
Mapping OCL into SQL: Challenges and Opportunities Ahead	3
<i>Manuel Clavel and Hoàng Nguyễn Phước Bảo</i>	
OCL Visualization – A Reality Check	17
<i>Edward D. Willink</i>	
Experimenting with Functional Features of the Object Constraint Language	31
<i>Daniel Calegari and Marcos Viera</i>	
A Feasibility Study on Using Classifying Terms in Alloy	45
<i>Robert Clarisó and Martin Gogolla</i>	
Native Support for UML and OCL Primitive Datatypes Enriched with Uncertainty in USE	59
<i>Víctor Ortiz, Loli Burqueño, Antonio Vallecillo, and Martin Gogolla</i>	
Reusable Textual Notations for Domain-Specific Languages	67
<i>Patrick Neubauer, Robert Bill, Dimitris Kolovos, Richard F. Paige, and Manuel Wimmer</i>	
Automatic Generation of Valid Behavioral Scripts from UML Sequence Diagrams	81
<i>Paula Muñoz, Loli Burqueño, Martin Gogolla, and Antonio Vallecillo</i>	
Emerging Topics in Textual Modelling	91
<i>Achim D. Brucker, Gwendal Daniel, Martin Gogolla, Frédéric Jouault, Christophe Ponsard, Valéry Ramon, and Edward D. Willink</i>
