Preface

The XIII edition of the Latin American Women in Computing Congress / XIII edición del Congreso de la Mujer Latinoamericana en la Computación (LAWCC) was held as part of the XLVII Latin American Computer Conference (CLEI). This edition maintains the same principles of the previous ones. Its main objective is to highlight the research, interest and achievements of women in the various areas of computing, with the intention of encouraging the active participation of more women. The papers presented at the conference identify women's challenges in areas related to Computing, Information Technology and Telecommunications (ICT) and STEM (Science, Technology, Engineering and Mathematics) in teaching, in the workplace, in research and society in general. They find ways to address recurring problems related to gender and interaction with society. The topics covered but not exclusive that were proposed for this edition were:

- Analysis of the activity and participation of women in STEM and ICT in general.
- Contributions of women from STEM / ICT areas in responding to the pandemic.
- Female participation in scientific and technological events (hackathons, science clubs, etc.).
- Inclusive software development (games, apps and others) with strong participation of women.
- Initiatives to promote gender equity in STEM/ICT.
- Experiences of women's groups / communities in STEM / ICT areas.
- Gender and Human-Computer Interaction.
- Women's leadership models and ICT.
- Gender particularities in the development and implementation of ICTs
- Gender particularities in the teaching of STEM/ICT, in the 5 levels: initial, pre-school, primary, secondary and higher education.
- Women's participation in national and international decision making concerning the use of ICT
- Public policies on women and ICTs.

LAWCC was held in virtual mode on October 28th. The current edition, LAWCC 2021 has had 17 submissions from which 9 full papers were accepted, that is, there is a 47% rejection rate. These papers have involved 40 authors from Brazil, Chile, Costa Rica, Ecuador, Spain and Uruguay.

Alicia García-Holgado
Conference Chairs
María Estrada (Tecnológico de Costa Rica, Costa Rica)
Alicia García-Holgado (University of Salamanca, Spain)

Scientific Committees
Diana Francisca Adamatti (Federal University of Rio Grande, Brazil)
Marília Amaral (Federal Technological University of Paraná, Brazil)
Lilian Berton (Federal University of São Paulo, Brazil)
Kelly Braghetto (University of São Paulo, Brazil)
Simone André Da Costa Cavalheiro (Federal University of Pelotas, Brazil)
Janneth Chicaiza (Universidad Técnica Particular de Loja, Ecuador)
Sonia Contreras (Universidad Tecnológica de Bolívar, Colombia)
Samanta Cueva (Universidad Técnica Particular de Loja, Ecuador)
Rosiane de Freitas (Universidad Federal del Amazonas, Brazil)
Andrea Delgado (Universidad de la República, Uruguay)
Maria Elena García (Universidad Nacional de Asunción, Paraguay)
Rafael García (Polytechnician Grancolombiano, Colombia)
Ana Gonzales Ramos (Universidad Pablo de Olavide, Spain)
Carina González (Universidad de La Laguna, Spain)
Maristela Holanda (University of Brasilia, Brazil)
Silvia Leal (BCC Speakers, Spain)
Claudia Lopez (Universidad Tecnica Federico Santa Maria, Chile)
Cristiano Maciel (Federal University of Mato Grosso, Brazil)
Gabriela Marin (Universidad de Costa Rica, Costa Rica)
Fabiola Nakamura (Federal University of Amazonas, Brazil)
Ariella Quesada (Universidad Nacional, Costa Rica)
Germania Rodríguez (Universidad Técnica Particular de Loja, Ecuador)
Katty Rohoden (Universidad Técnica Particular de Loja, Ecuador)
Donna Roper (Universidad de Panama, Panama)
Aiala Rosá (Universidad de la República, Uruguay)
Karla Susiane (Federal University of Amazonas, Brazil)
Maria E. Urquhart (Universidad de la República, Uruguay)
Marcela Varas (Universidad de Concepción, Chile)
Sonia Verdugo (Universidad de Salamanca, Spain)
Renata Wassermann (Universidad de São Paulo, Brazil)
Nilda Yangüez (Universidad Tecnológica de Panamá, Panama)
# Table of contents

**The first experiences of the UNA STEM network**  
Irene Hernández, María Arias Andres, Carolina Esquivel Dobles, Khalia Calvo Sánchez, Francisco Loria Valverde and Christian Chaverri Ramos .......................................................................................................................... 1-11

**Gender gap perception of computer science students in Costa Rica: a case study in two public universities**  
Alicia García-Holgado, María Estrada, Gabriela Marín and Francisco José García-Peñalvo ........................................ 12-21

**STEM females Ecuador, initiative, and the labor scenery**  
Germania Rodríguez Morales, Samanta Cueva Carrión, Luz María Tobar and Andrea Carrión Herrera ................. 22-34

**Niñas Pro: an initiative to educate, inspire and empower women**  
Mabel Vidal, Jazmine Maldonado, Teresa Bracamonte, Florencia Miranda, Antonia Labarca and Jocelyn Simmonds .......................................................................................................................... 35-46

**Computing for girls in elementary school in Brazil: A mapping of literature**  
Maristela Holanda, Alice Lima, Alice Borges, Kailany Ketulhe, Carla Koike, Roberta B. Oliveira and Aleteia P. F. Araujo .................................................................................................................. 47-56

**An experience on virtual hands-on workshops to bring teenage girls to Computer Science in Uruguay**  
Andrea Delgado, Aiala Rosá, Adriana Marotta, Camila Sanz, Raquel Sosa, Mercedes Marzoa and Lorena Etcheverry ........................................................................................................................................ 57-68

**GoGirls: gender equity integrated into digital literacy**  
Emely Vitória V. Albernaz and Valguima Odakura ........................................................................................................... 69-80

**An analysis of the reproduction of gender bias in the speech of Alexa virtual assistant**  
Christiane B. Oliveira and Marilia A. Amaral ................................................................................................................... 81-92

**A scientific research overview at the Brazilian Computer Society Congress: a feminine perspective**  
Thalia S. Santana and Adriano H. Braga ................................................................................................................... 93-104
