This volume includes workshop papers presented at the 30th ACM International Conference on Information and Knowledge Management (CIKM 2021), held during November 1-5, 2021, in Gold Coast, Queensland, Australia.

Nine workshops were accepted to this edition:

- CDCEO’21: 1st Workshop on Complex Data Challenges in Earth Observation
- IWILDS’21: 2nd Workshop on Investigating Learning During Web Search
- KDAH-CIKM-2021: 4th Workshop on Knowledge-driven Analytics and Systems Impacting Human Quality of Life
- KINN’21: 1st Workshop on Knowledge Injection in Neural Networks
- LQ 2021: Learning to Quantify: Methods and Applications
- MODIMO: Workshop on Multi-Omics Data Integration for Modelling Biological Systems
- MUFin21: International Workshop on Modelling Uncertainty in the Financial World
- PSTCI2021: International Workshop on Privacy, Security and Trust in Computational Intelligence
- THECOG: Transforms in beHavioral and affective COmputinG

All workshops provide interdisciplinary forums for academics and industry experts from different background areas such as computer science, machine learning, information science, psychology, finance, biology, data mining, to exchange latest research ideas, discuss on open challenges and facilitate cross-disciplinary collaborations.

We would like to thank all authors, participants and workshop organisers for their contributions and supports to this edition. We sincerely hope that the papers of the CIKM 2021 workshops will benefit researchers for future development.
