Preface

These proceedings contain the contributed papers for the Sixth International Workshop on Narrative Extraction from Texts (Text2Story2023[1]) held in conjunction with the ECIR 2023 conference in Dublin, Ireland, on the 2nd of April 2023. Thirty two papers were submitted for peer-review to this workshop. Out of these, nineteen papers were accepted for this volume, nine as regular papers, and ten in the category of *Work in Progress, Demos and Dissemination*. Each submitted paper was reviewed by three members of an international programme committee. In addition to the selected papers, the workshop features two invited speakers: Georgiana Ifrim and Valentina Bartalesi. Georgiana Ifrim gave a talk entitled "Structured Summarisation of News at Scale". Valentina Bartalesi gave a talk entitled "Creating and Visualising Semantic Story Maps".

We would like to thank ECIR for hosting us, our keynote speakers, the programme committee, the paper authors, and the participants, who have made this workshop possible. Editors Ricardo Campos and Alípio Jorge were financed by National Funds through the FCT - Fundação para a Ciência e a Tecnologia, I.P. (Portuguese Foundation for Science and Technology) within the project StorySense, with reference 2022.09312.PTDC.

Editors

Ricardo Campos (INESC TEC; Ci2 – Smart Cities Research Center – Polytechnic Institute of Tomar, Portugal)
Alípio M. Jorge (INESC TEC; University of Porto, Portugal)
Adam Jatowt (University of Innsbruck, Austria)
Sumit Bhatia (Adobe Media and Data Science Research Lab, India)
Marina Litvak (Shamoon Academic College of Engineering, Israel)

Proceedings Chair

Conceição Rocha (INESC TEC)
João Paulo Cordeiro (INESC TEC; University of Beira Interior)
