Message from the DOLAP 2024 Chairs

The International Workshop On Design, Optimization, Languages and Analytical Processing of Big Data reached now its 26th edition. For DOLAP 2024 we received 29 submissions, which included full papers, short papers, and for the first time a special track for extended abstracts to participate in an Interactive Panel Session on: Artificial Intelligence in Data Analytics. In the review process, all the submitted papers received 3 to 4 reviews. As a result of the process, 6 papers were accepted as full papers, 5 as short papers for the workshop, and 3 as panel discussion proposals. On top of that, DOLAP 2024 hosted one invited keynote by Professor Tova Milo, and one invited paper on the 25 Years Journey Through Research Trends and Performance at DOLAP. Further, this year, the DOLAP Program Chairs assigned the best paper award to Kristo Raun, Riccardo Tommasini, and Ahmed Awad for their paper “Adaptive Handling of Out-of-order Streams in Conformance Checking”.

The DOLAP 2024 Chairs would like to thank the Steering Committee and the Program Committee Members for their thorough and timely work.
