CAiSE Forum 2012

Proceedings of the CAiSE'12 Forum at the 24th International Conference on Advanced Information Systems Engineering (CAiSE), Gdańsk, Poland, June 25-29, 2012

CEUR-WS.org/Vol-855
CAiSE 2012 was the 24th in the series of International Conferences on Advanced Information System Engineering. The theme of CAiSE 2012 is Information Services. The notion of service plays an increasingly extensive role in the enterprise development. Indeed, most organizations are based on the exchange of services: services to the customers and/or citizens, services to support the inter-organizational collaboration as well as services to accomplish intra-organizational activities. Many organizations are sharing services with others, interfacing services from others, or outsourcing their ICT resources to various locations worldwide aided by the internet. For all of them, the concept of service becomes a cornerstone of their collaboration, innovation and value creation. In this context, the information systems (IS) engineering is moving towards the adoption of service-driven architectures where intra- and inter-organisational business activities are carried out with the help of information services.

The CAiSE Forum 2012 is a place within the CAiSE conference for presenting and discussing new ideas and tools related to information systems engineering. Intended to serve as an interactive platform, the Forum aims at the presentation of fresh ideas, emerging new topics, controversial positions, as well as demonstration of innovative systems, tools and applications. Two types of submissions have been invited to the Forum:

(1) Visionary short papers that present innovative research projects, which are still at a relatively early stage and do not necessarily include a full-scale validation.

(2) Demo papers describing innovative tools and prototypes that implement the results of research efforts.

The CAiSE Forum 2012 proceedings represent a collection of 22 excellent short research papers and demos. The selection of Forum papers was very competitive, due to the high standard of the submitted papers. Several innovative papers initially submitted to the CAiSE conference were selected for the CAiSE Forum to stimulate open discussions of high-quality on-going research.

We devote a special thanks to the members of the international programme committee for promoting the Forum and for providing excellent reviews of the submitted papers. Their dedicated work was vital for putting together a high-quality working conference. We also thank the external reviewers. Special thanks go to the University of Gdański, Riga Technical University, and Stockholm University for supporting the organization of the CAiSE Forum.

June 2012

Marite Kirikova
Janis Stirna
CAiSE Forum 2012 Organization

General Chair
Sjaak Brinkkemper
Utrecht University, The Netherlands

CAiSE Programme Committee Chairs
Jolita Ralytė
University of Geneva, Switzerland

Xavier Franch
Universitat Politécnica de Catalunya, Spain

Forum Chairs
Marite Kirikova
Riga Technical University, Latvia

Janis Stirna
Stockholm University, Sweden

Organizing Chair
Stanislaw Wrycza
University of Gdańsk, Poland

Publication Chair
Lota Endzele
Riga Technical University, Latvia

Forum Programme Committee
Joao Paulo Almeida, Federal University of Espirito Santo, Brazil
Per Backlund, University of Skövde, Sweden
Judith Barrios Albornoz, University of Los Andes, Venezuela
Peter Bellström, Karlstad University, Sweden
Wojciech Cellary, Poznan University of Economics, Poland
Remi Coletta, LIRMM, University Montpellier 2, France
Maya Daneva, University of Twente, The Netherlands
Sergio España, Universitat Politècnica de València, Spain
Chihab Hanachi, University Toulouse 1, France
Martin Henkel, Stockholm University, Sweden
Stijn Hoppenbrouwers, Radboud University Nijmegen, The Netherlands
Mirjana Ivanovic, University of Novi Sad, Serbia
Janis Kampars, Riga Technical University, Latvia
Agnes Koschmider, Karlsruher Institut für Technologie, Germany
Andrzej Kobylinski, Warsaw School of Economics, Poland
Audrius Lopata, Kaunas University of Technology, Lithuania
Raimundas Matulevicius, University of Tartu, Estonia
Laila Niedrite, University of Latvia, Latvia
Enn Õunapuu, Tallinn University of Technology, Estonia
Kurt Sandkuhl, University of Rostock, Germany
Krzysztof Stencel, University of Warsaw, Poland
Nikolay Shilov, SPIIRAS, Russia
Arnon Sturm, Ben-Gurion University, Israel
Christer Thörn, Jönköping University, Sweden
Stanislaw Wrycza, University of Gdańsk, Poland
Jelena Zdravkovic, Stockholm University, Sweden
Iryna Zolotaryova, Kharkiv National University of Economics, Ukraine

External Reviewers

Andrey Polyakov
Andrzej Sobczak
## Table of Contents

A Model Transformation from Misuse Cases to Secure Tropos ..................................................7  
*Naved Ahmed, Raimundas Matulevicius, Haralambos Mouratidis*

An Aspect-Oriented Approach to Relating Security Requirements and Access Control ..................15  
*Azadeh Alebrahim, Thein Than Tun, Yijun Yu, Marititta Heisel, Bashar Nuseibeh*

Support for Deviation Detections in the Context of Multi-Viewpoint-Based Development Processes ......23  
*Reda Bendraou, Marcos Aurélio Almeida da Silva, Marie-Pierre Gervais, Xavier Blanc*

SDWM: An Enhanced Spatial Data Warehouse Metamodel ..........................................................32  
*Alfredo Cuzzocrea, Robson do Nascimento Fidalgo*

Risk Identification of Tailorable Context-aware Systems: a Case Study and Lessons Learned.............40  
*Mohammad Zarifi Estami, Brahmananda Sapkota, Alireza Zarghami, Eelco Vriezekolk, Marten van Sinderen, Roel Wieringa*

Social Forking in Open Source Software: An Empirical Study ....................................................50  
*Kam Hay Fung, Aybüke Aurum, David Tang*

ProMetheuS: A Suite for Process Mining Applications ................................................................58  
*Lucantonio Ghionna, Luigi Granata, Gianluigi Greco, Massimo Guarascio*

Virtual Worlds as a Model-View Approach to the Communication of Business Processes Models........66  
*Hanwen Guo, Ross Brown, Rune Rasmussen*

On Applying Sonification Methods to Convey Business Process Data ............................................74  
*Tobias Hildebrandt, Simone Kriglstein, Steffanie Rinderle-Ma*

Toward a Conceptual Comparison Framework between CBSE and SOSE ..................................82  
*Anthony Hock-koon, Mourad Oussalah*

A UML-based Rich Service Description Language for Automatic Service Discovery of Heterogeneous  
Service Partners .........................................................................................................................90  
*Zille Huma, Christian Gerth, Gregor Engels, Oliver Juwig*

AMES: Towards an Agile Method for ERP Selection ....................................................................98  
*Gustaf Juell-Skielse, Anders G. Nilsson, Andreas Nordqvist, Mattias Westergren*

Facilitating Business Improvement by Information Systems using Model Transformation and Metrics......106  
*Haruhiko Kaiya, Shunsuke Morita, Kenji Kajiri, Shinpei Hayashi, Motoshi Saeki*

Transforming Transaction Models into ArchiMate .......................................................................114  
*Sybren de Kinderen, Khaled Gaaloul, Henderik Alex (Erik) Proper*
Quality Management Modeling of Business Processes in IS Project ............................................................. 122
Michał Kuciapski

Suitability of Active Rules for Model Transformation ..................................................................................... 131
Lingzhe Liu, Manfred A. Jeusfeld

Enterprise Modelling in Distributed Teams-Lessons Learned from Information Demand Modelling .......... 139
Magnus Lundqvist, Kurt Sandkuhl, Ulf Seigerroth

VariaMos: a Tool for Product Line Driven Systems Engineering with a Constraint Based Approach ........ 147
Raul Mazo, Camille Salinesi, Daniel Diaz

Modelling Security Requirements in Socio-Technical Systems with STS-Tool ............................................. 155
Elda Paja, Fabiano Dalpiaz, Mauro Poggianella, Pierluigi Roberti, Paolo Giorgini

LiProMo-Literate Process Modeling ................................................................................................................. 163
Jakob Pinggera, Thomas Porcham, Stefan Zugal, Barbara Weber

Workflow Partitioning for Offline Distributed Execution on Mobile Devices ................................................. 171
Peter Wakholi, Weiqin Chen

Towards a Formal Process-driven Framework for Streamlining Patient-centric Care ............................... 179
Wen Yao, Akhil Kumar, Jerome Rolia, Sujoy Basu, Sharad Singhal
