Sophia Katrenko
Utrecht University

Preface

The 24th European Summer School in Logic, Language, and Information (ESSLLI) took place on August 6-17, Opole, Poland, under the auspices of FoLLI. This volume contains the proceedings of the 17th Student Session, an annual event which takes place within ESSLLI. It contains 21 papers addressing a wide range of topics in logic, language, and computation. These papers were selected from a large number of excellent submissions on the basis of reports by expert reviewers in the relevant areas.

Great thanks are due to the area experts and to the two previous chairs, Marija Slavkovic (2010) and Daniel Lassiter (2011), for their advice and support, to Kristian K. Olesen for help with matters \LaTeX , and to Janusz Czelakowski, Urszula Wybraniec-Skardowska and the rest of the ESSLLI 2012 Organizing Committee. Special recognition goes to Springer for their continuing support of the Student Session. Most importantly, thanks to all those who submitted papers, and to the many reviewers who generously gave their time to provide thoughtful feedback on each submission.

Rasmus K. Rendsvig
Chair, ESSLLI 2012 Student Session
Copenhagen, August 2012

Organization

Chair:	Rasmus K. Rendsvig
Co-Chairs:	Niels Beuck (Language and Computation) Margot Colinet (Logic and Language) Maxim Haddad (Logic and Computation) Anders Johannsen (Language and Computation) Dominik Klein (Logic and Computation) Matthijs Westera (Logic and Language)
Area Experts:	Ann Copestake (Language and Computation) Friederike Moltmann (Logic and Language) Eric Pacuit (Logic and Computation)

Table of Contents

Preface	i
Organization	ii
Aligning Geospatial Ontologies Logically	1
<i>Heshan Du</i>	
Doing Argumentation using Theories in Graph Normal Form	13
<i>Sjur Dyrkolbotn</i>	
The Expressive Power of Swap Logic	23
<i>Raul Fervari</i>	
Reasoning on Procedural Programs using Description Logics with Concrete Domains	32
<i>Ronald de Haan</i>	
Small Steps in Heuristics for the Russian Cards Problem Protocols	43
<i>Ignacio Hernández-Antón</i>	
Markov Logic Networks for Spatial Language in Reference Resolution.....	54
<i>Casey Kennington</i>	
Using Conditional Probabilities and Vowel Collocations of a Corpus of Orthographic Representations to Evaluate Nonce Words	65
<i>Özkan Kılıç</i>	
A Dynamic Probabilistic Approach to Epistemic Modality	73
<i>Manuel Kríž</i>	
Computing with Numbers, Cognition and the Epistemic Value of Iconicity	84
<i>José Gustavo Morales</i>	
The Force of Innovation	93
<i>Mühlenbernd, Nick & Adam</i>	
Existential Definability of Modal Frame Classes	104
<i>Tin Perkov</i>	
Spotting and Improving Modularity in Large Scale Grammar Development	112
<i>Simon Petitjean</i>	
Questions of Trust	121
<i>Jason Quinley and Christopher Ahern</i>	
Checking Admissibility in Finite Algebras	133
<i>Christoph Röthlisberger</i>	

Scalar Properties of Degree Modification in Karitiana: Evidence for Indeterminate Scales	142
<i>Luciana Sanchez Mendes</i>	
PCFG Extraction and Sentence Analysis.	150
<i>Noémie-Fleur Sandillon-Rezer</i>	
An Interaction Grammar for English Verbs	160
<i>Shohreh Tabatabayi Seifi</i>	
Toward a Discourse Structure Account of Speech and Attitude Reports	170
<i>Antoine Venant</i>	
<i>Some</i> , Speaker Knowledge, and Subkinds	180
<i>Andrew Weir</i>	
Tableau-based Decision Procedure for Hybrid Logic with Satisfaction Operators, Universal Modality and Difference Modality	191
<i>Michał Zawidzki</i>	
A Frame-Based Semantics of Locative Alternation in LTAG	202
<i>Yulia Zinova</i>
