

11th International Workshop on Scalable Semantic Web Knowledge Base Systems (SSWS 2015)

**At the 14th International Semantic Web Conference (ISWC2015),
Bethlehem, PA, USA October, 2015**

SSWS 2015 PC Co-chairs' Message

SSWS 2015 is the eleventh edition of the successful Scalable Semantic Web Knowledge Base Systems workshop series. The workshop series is focussed on addressing scalability issues with respect to the development and deployment of knowledge base systems on the Semantic Web. Typically, such systems deal with information described in Semantic Web languages such as OWL and RDF(S), and provide services such as storing, reasoning, querying and debugging. There are two basic requirements for these systems. First, they have to satisfy the applications semantic requirements by providing sufficient reasoning support. Second, they must scale well in order to be of practical use. Given the sheer size and distributed nature of the Semantic Web, these requirements impose additional challenges beyond those addressed by earlier knowledge base systems. This workshop brought together researchers and practitioners to share their ideas regarding building and evaluating scalable knowledge base systems for the Semantic Web.

This year we received 6 submissions. Each paper was carefully evaluated by three workshop Program Committee members. Based on these reviews, we accepted 5 papers for presentation. We sincerely thank the authors for all the submissions and are grateful for the excellent work by the Program Committee members.

October 2015

Thorsten Liebig
Achille Fokoue

Program Committee

Achille Fokoue
IBM Watson Research Center, USA

Raúl García-Castro
Univ. Politecnica de Madrid, Spain

Bernado Cuenca Grau
University of Oxford, UK

Volker Haarslev
Concordia University, Canada

Anastasios Kementsietsidis
Google Research, Mountain View, USA

Pavel Klinov
Complexible Inc., USA

Adila A. Krisnadhi
Wright State University, Ohio, USA

Thorsten Liebig
derivo GmbH, Germany

Raghava Mutharaju
Wright State University, Ohio, USA

Padmashree Ravindra
North Carolina State University, USA

Mariano Rodríguez-Muro
IBM Watson Research Center, USA

Boris Motik
University of Oxford, UK

Supriyo Chakaraborty
IBM Watson Research Center, USA

Takahira Yamaguchi
Keio University, Japan

Additional Reviewers

Zixi Quan
Concordia University, Canada

Table of Contents

Invited Talk: Making a Silk Purse	1
<i>David Mizell</i>	
The OWL Reasoner Evaluation (ORE) 2015 Competition Report	2
<i>Biyan Parsia, Nicolas Matentzoglou, Rafael Goncalves, Birte Glimm, and Andreas Steigmiller</i>	
On the Evaluation of RDF Distribution Algorithms Implemented over Apache Spark	16
<i>Olivier Cur, Hubert Naacke, Mohamed-Amine Baazizi, and Bernd Amann</i>	
Reifying RDF: What Works Well With Wikidata?	32
<i>Daniel Hernandez, Aidan Hogan, and Markus Krtzsch</i>	
Dynamic join order optimization for SPARQL endpoint federation	48
<i>Hongyan Wu, Atsuko Yamaguchi, and Jin-Dong Kim</i>	
Parallel Data Loading during Querying Deep Web and Linked Open Data with SPARQL ...	63
<i>Pauline Folz, Gabriela Montoya, Hala Skaf-Molli, Pascal Molli, and Maria-Esther Vidal</i>
