Part 1: Foundations

A Characterization of Propositional Epistemic Logic 1
Edgar Everardo Martínez García

Gödel's Theorems on Conditions of Being Incomplete and Consistent Elucidated with Principles of Abstraction Levels, Complementarity, and Self-Reference (Teoremas de Gödel Sobre Condiciones de Ser Incompleto y Consistente Elucidados con Principios de Niveles de Abstracción, Complementariedad, y Auto-Referencia)—invited paper 9
Eric Smith

Consistent Transformations of Knowledge Bases in Answer Set Programming—invited paper 17
Juan C. Acosta-Guadarrama

Mobile Application for an Online Logic Lab (Aplicación Móvil para Laboratorio de Lógica en Linea) 25
Debora Sarahi Rodríguez Aguilar, Rosa María Quiñones Arellano and Juan C. Acosta-Guadarrama

Part 2: Computing Science

Biometric authentication based on eye-movements by using scan-path comparison algorithms 33
Alberto Quintana-Nevárez, Francisco Lopez-Orozco and Rogelio Florencia-Juárez

Approach of Implementation using models of analysis of main component for breeding and reproduction of tilapia 40
Sergio Barrios and Alberto Ochoa Ortiz Zezzatti

Algorithm for the detection of breast cancer in digital mammograms using deep learning . 47
Natalia Pirouzbakht and Jose Mejia

Simulation of a Master-Slave Tele-Operated System for People with Muscular Atrophy in Upper Limbs 51
Francesco Garcia and Karla Gomez

Robot Path planning using reinforcement learning and nonlinear function approximation (Planeacion de trayetoria utilizando aprendizaje por reforzamiento y funcion de aproximacion) 56
David Luviano Cruz, Miguel Angel Rodriguez Ruiz, Luis Asuncion Perez Dominguez and Luis Carlos Mendez Gonzalez

Part 3: Proposal Posters

Auxiliary system for restaurants (Sistema auxiliar para restaurantes) 62
Jorge Alberto Medina Franco

Software application to help students of middle school with the admission test to high school (Aplicación de software para ayudar a alumnos de secundaria con el examen de admisión a preparatoria) 63
Hugo Alejandro González Herrera

Optimization of an SBRP implementing a PSO algorithm to resolve instances 65
Alberto Ochoa, Fabián Ortíz, Ulises Carbajal, Manuel Rivera and Jorge Rodas

Approach to Cluster Analysis for Decision Making in an Ornamental Japanese Fish Aquarium 66
Luis Pérez and Alberto Ochoa Ortiz Zezzatti

Facebook versus professionals: comparison of the writing of students at UACJ in different written communication environments (Facebook versus profesionales: comparación de la escritura de estudiantes en la UACJ en distintos entornos de comunicación escrita) 67
Carlos Loya

Controlled access system to Indiobus (Sistema de Acceso Controlado al Indiobus) 68
Omar Ortega

BookooB 69
Cesar Perez
