

Preface

This volume contains the papers presented at IWESQ 2019: 1st International Workshop on Experience with SQuaRE series and their Future Direction held on December 2, 2019 in Putrajaya.

There were 7 submissions. Each submission was reviewed by at least 3, and on the average 4.1, program committee members. The committee decided to accept 7 papers. The program also includes 1 invited talks.

The ISO/IEC 25000 (Systems and Software Quality Requirements and Evaluation: SQuaRE) series is a set of international standards for systems and software, data and IT service quality, which has been widely used for a couple of decades. In the research field, it have been also examined as a tool for performing various analyses and evaluations on systems and software quality.

The 1st International Workshop on Experience with SQuaRE series and their Future Direction (IWESQ 2019) aims at sharing such research outcomes and issues, and experience of practical applications of the SQuaRE series, in order to promote much more fruitful research and practice for quality systems and software products.

Furthermore, we gratefully acknowledge the professional work of the international program committee members, who have contributed substantially with their highly qualified referee reports.

In addition, we owe great thanks to the APSEC conference organization members for their dedication and professionalism in taking care of the many aspects of conference management.

Moreover, we would like to thank the developers and other professional staff of EasyChair.org, who made it possible for us to use the resources of this excellent and comprehensive conference management system, from the call of papers and inviting reviewers, to handling paper submissions, communicating with the authors, and creating the online volume of the conference proceedings.

We also want to thank all presenters and attendees for actively contributing to the success of IWESQ 2019. We are looking forward to excellent presentations and fruitful discussions, which will broaden our professional horizons. All participants are invited to make new friends within the community of SQuaRE users.

Table of Contents

Study Group Report on SQuaRE Future Direction	1
<i>Tsuyoshi Nakajima</i>	
Revisiting the Quality in Use model	6
<i>Raul Martinez</i>	
Examples of practical use of ISO 25000	9
<i>Andrea Trenta and Domenico Natale</i>	
Quality Consideration for e-Learning System based on ISO/IEC 25000 Quality Standard	12
<i>Aedah Abd Rahman</i>	
Usability in software development process -Proposal of Society/Stakeholder Centered Design (SCD)-	18
<i>Shinichi Fukuzumi and Nowky Hirasawa</i>	
test management based on quality characteristics	20
<i>Daiju Kato, Ayako Okuyama and Hiroshi Ishikawa</i>	
Research on Quality Model of Industrial Application Software	22
<i>Yangyang Zhang, Xiaojian Liu and Xun Sun</i>	
Hidden-use Case for Eliciting Quality in Use	25
<i>Natsuko Noda, Tomoji Kishi and Shin'Ichi Fukuzumi</i>	

Program Committee

Lizhi Cai	Shanghai Key Laboratory of Computer Software Evaluating & Testing
Bill Curtis	CAST
Shinichi Fukuzumi	RIKEN
Hyunchong Kim	TTA
Toshihiro Komiyama	NEC Corporation
Raúl Martínez	IRAM
Herman Md-Tahir	MSTB
Mohd-Khaizul-Azhar	Malaysian Software Testing Board
Mohd-Yusof	
Tsuyoshi Nakajima	Shibaura Institute of Technology
Domenico Natale	AgID
Andrea Trenta	TIM
Noriko Wada	Yamanashi Eiwa college
Yangyang Zhang	China Electronics Standardization Institute
