

Preface

These are the Proceedings of the Workshops co-located with the 23rd International Conference on Extending Database Technology and the 23rd International Conference on Database Theory, 30th March-2nd April 2020, Copenhagen, Denmark.

The EDBT/ICDT 2020 joint conference and all of its Workshops took place fully online due to the global coronavirus pandemic. The workshops chair, organisers, presenters, and online attendees express their gratitude to the Conference Officers, Executive Board and local organisation teams in making possible the online workshops under the challenging circumstances faced world-wide.
