# Preface

This volume contains the proceedings of the workshops: First International Workshop on Applied Artificial Intelligence (WAAI 2020), Second International Workshop on Applied Informatics for Economy, Society, and Development (AIESD 2020), Third International Workshop on Data Engineering and Analytics (WDEA 2020) and Third International Workshop on Smart and Sustainable Cities (WSSC 2020). These workshops were co-located with the Third International Conference on Applied Informatics (ICAI 2020)<sup>1</sup> and held online due to the COVID-19 pandemic, from 29 to 31 October 2020.

**First International Workshop on Applied Artificial Intelligence (WAAI 2020).** The workshop on Applied Artificial Intelligence is an annual event intended to be an important forum of the Artificial Intelligence (AI) community, organized by the GRUPO GEMIS of the Universidad Tecnológica Nacional Facultad Regional Buenos Aires. The workshop aims to provide a forum for researchers and AI community members to discuss and exchange ideas and experiences on diverse topics of AI. It also seeks to strengthen a space for discussion of innovative ideas as well as development of emerging technologies and practical experiences related to Artificial Intelligence in general and each of its technologies in particular. Submissions are invited on both applications of AI and new tools and foundations.

**Second International Workshop on Applied Informatics for Economy, Society, and Development (AIESD 2020).** The workshop on Applied Informatics for Economy, Society and Development organized by the SAEES Research Group of ABREC (Ecuador) seeks to promote discussion and dissemination of current economics research, systems for territorial intelligence, e-participation, e-democracy and territorial economic development; with special emphasis on social and environmental development. The objective of this second edition of AIESD 2020 is to discuss aspects related to computer science applied in society. The idea is to learn the different techniques and tools that are used to study social phenomena, economic growth, the interaction between economic analysis and decision-making. The workshop seeks to promote an atmosphere of dialogue among the community of professionals working on issues related to technology and its application in the economy as well as society.

**Third International Workshop on Data Engineering and Analytics (WDEA 2020).** Data has become pervasive. Data Analytics, Data Mining, Data Science, or more generally the practice of identifying patterns or constructing mathematical models based on data, is at the heart of most new business models or projects. This, coupled with what has been termed the Big Data phenomenon, used to describe challenging scenarios involving either datasets that are too big to be handled using traditional approaches, datasets with diverse formats and semantics, data streams that need to be actioned in real time, or a combination of these, has led to a whole new series of rapidly evolving tools, algorithms and methods which combine data engineering, computer science, statistics and mathematics. The aim of this workshop is to present recent results at the intersection of these areas, discussing new methods or algorithms, or applications including Machine Learning, Databases, optimization or any type of algorithms which consider managing or obtaining value from data.

**Third International Workshop on Smart and Sustainable Cities (WSSC 2020).** The International Telecommunication Union (ITU) defines a smart sustainable city as “an innovative city that uses information and communication technologies (ICTs) and other means to improve quality of life, efficiency of urban operation and services, and competitiveness, while ensuring that it meets the needs of present and future generations with respect to economic, social, environmental as well as cultural aspects”. The aim of this Workshop is to present recent results in this area, discussing new methods or algorithms, or applications in different areas including architecture, culture, tourism, mobility, among others.

The workshops received 26 submissions in total. All submitted papers underwent a double blind peer review process, where each paper was reviewed by at least two (2) experts. After a careful discussion, the diverse program committees decided to accept fifteen research papers overall. This volume includes these papers. These papers are distributed as follows across the workshops: two papers from WAAL, seven papers from AIESD, four papers from WDEA, and two papers from WSSC.

We wish to thank the Program Committee members and all additional reviewers for their efforts.

All the workshops took place on 30 October, 2020. In all of them, each paper presentation was immediately followed by comments from session chairs and a plenary discussion. We thank all session chairs for their careful preparations and for triggering the discussions.

## Second International Conference on Applied Informatics (ICAI 2019)

### *General Chairs*

Hector Florez	Universidad Distrital Francisco José de Caldas, Colombia
Sanjay Misra	Covenant University, Nigeria

### *Steering Committee*

Jaime Chavarriaga	Universidad de los Andes, Colombia
Cesar Diaz	OCOX AI, Colombia
Hector Florez	Universidad Distrital Francisco José de Caldas, Colombia
Ixent Galpin	Universidad de Bogotá Jorge Tadeo Lozano, Colombia
Olmer García	Universidad de Bogotá Jorge Tadeo Lozano, Colombia
Christian Grévisse	Université du Luxembourg, Luxembourg
Sanjay Misra	Covenant University, Nigeria
Fernando Yepes-Calderon	Children's Hospital Los Angeles, United States

### *Workshops Committee*

Hector Florez	Universidad Distrital Francisco José de Caldas, Colombia
Ixent Galpin	Universidad de Bogotá Jorge Tadeo Lozano, Colombia
Christian Grévisse	Université du Luxembourg, Luxembourg

## **First International Workshop on Applied Artificial Intelligence (WAAI 2020)**

### *Organizing Committee*

María Florencia Pollo- Cattaneo      Universidad Tecnológica Nacional Facultad Regional Buenos Aires, Argentina

Hernán D. Merlino      Universidad Tecnológica Nacional Facultad Regional Buenos Aires, Argentina

### *Program Committee*

Rodolfo Bertone      Universidad Nacional de La Plata, Argentina

Paola Britos      Universidad Nacional de Río Negro, Argentina

Enrique Fernandez      Universidad Tecnológica Nacional Facultad Regional Buenos Aires, Argentina

Alejandro Hossian      Universidad Tecnológica Nacional Facultad Regional del Neuquén, Argentina

Horacio Kuna      Universidad Nacional de Misiones, Argentina
