Research Papers

A Concept for Automated Polarized Web Content Annotation based on Multimodal Active Learning	1
<i>Marek Herde, Denis Huseljic, Jelena Mitrović, Michael Granitzer and Bernhard Sick</i>	
BioSegment: Active Learning segmentation for 3D electron microscopy imaging	7
<i>Benjamin Rombaut, Joris Roels and Yvan Saeys</i>	
Enhancing Active Learning with Weak Supervision and Transfer Learning by Leveraging Information and Knowledge Sources	27
<i>Lukas Rauch, Denis Huseljic and Bernhard Sick</i>	
Accelerating Diversity Sampling for Deep Active Learning By Low-Dimensional Representations	43
<i>Sandra Gilhuber, Max Berrendorf, Yunpu Ma and Thomas Seidl</i>	
A Practical Evaluation of Active Learning Approaches for Object Detection	49
<i>Jan Schneegans, Maarten Bieshaar and Bernhard Sick</i>	
Certifiable Active Class Selection in Multi-Class Classification	68
<i>Martin Senz, Mirko Bunse and Katharina Morik</i>
