

1. Preface

International Workshop on Multilingual Semantic Web - 2022, is the second edition of the workshop co-located with KGSWC 2022. The primary aim of this workshop is to bring together researchers from different parts of the world working on multilingual semantic web projects targeted at providing speech and language therapies across under-resourced languages by translating semantic web content to the various languages in existence. The multiple focus areas of these researchers include multilingual machine translations, Natural Language Processing, Knowledge Representations and Reasoning (KRR), semantic web, ontology developments, knowledge graphs, Machine Learning, etc. The organizing team is thankful to the everyone involved in making the IWMSW 2022 a success. Firstly, our thanks go to all the organizers of the main conference and Program Committee members for ensuring a rigorous review process that led to an excellent scientific program with an average of three reviews per article. The efforts of co-chairs towards the success of the workshop were highly appreciated. We are also very thankful to the authors for their painstaking efforts to write-up and present in the workshop.

IWMSW 2022 accepted 7 papers after rigorous reviewing process. All accepted papers were long papers and was reviewed by three reviewers with different backgrounds. The papers were:

- Dialect Translation of English Language to Telangana
- Virtual Properties for Ontologies and Knowledge Graphs
- ISCR: Integrative Intelligent Semantically Driven RDF Based Scheme for Online Course Recommendation
- A Critical Review on Multilingual Food Recommendation Systems for Critical Medical Conditions
- Semantic Representation of Igbo Text Using Knowledge Graph
- Descriptive Answer Evaluation using NLP Processes Integrated with Strategically Constructed Semantic Skill Ontologies
- Automatic Resume Parsing using Greywolf Algorithm Integrated with Strategically Constructed Semantic Skill Ontologies
