

FG DB: Fachgruppe Datenbanksysteme

(Special Interest Group on Database Systems)

Chairs:

Wolfgang Nejdl (Leibniz Universität Hannover)

Ziawasch Abedjan (Leibniz Universität Hannover)

Programmkomitee:

Carsten Binnig

Matthias Weidlich

Matthias Boehm

Stefanie Scherzinger

Tilmann Rabl

Marcus Paradies

Thorsten Papenbrock

Jorge Arnulfo Quiane Ruiz

Wolfgang Lehner

Preface

The Fachgruppe Datenbanksysteme (FGDB) is one of the Special Interest Groups of the German Computer Science Society (GI). The corresponding workshop addresses the research on databases and information systems at the LWDA 2022 conference. The focus lies on coupling machine learning and data analytics with domain-specific data management solutions, the integration of heterogeneous data sources, data preprocessing under novel ethical concerns, data streaming techniques and scalable solutions for big data management.
