

Editorial to the EGOV-CeDEM-part 2024 CEUR proceedings

The EGOV-CeDEM-ePart 2024 conference, for short EGOV2024, was organized by the IFIP WG 8.5 on ICT and public administration. The conference is dedicated to digital or electronic government, open government, local government (smart cities), smart governance, artificial intelligence (AI), e-democracy, policy informatics, and electronic participation. With a long tradition along its various branches, the EGOV-CeDEM-ePart conference has gained its reputation of being the key and leading conference worldwide in the research domains of digital/electronic, open, and smart government, as well as electronic participation.

The call for papers attracted completed research papers, work-in-progress papers on ongoing research (including doctoral papers), project and case descriptions, as well as workshops and posters. This volume contains 34 full research papers, 2 reflection/viewpoint papers, 7 practitioner papers, 3 workshop descriptions, and 10 posters. All submissions were assessed through a double-blind peer-review process, with at least three reviewers per submission, and the acceptance rate was 42%. The submitted papers were of high quality, and many reviewers indicated that the topics of the papers they reviewed were novel.

The review process was based on a double-blind review process, and conflicts of interest were actively avoided. Authors of papers submitted their papers to a track. The track chairs had only access to the papers within their own track and could assign re-viewers and propose acceptance decisions. The lead track chair of each chair was the editor of the proceedings, in addition to the general chairs. Track chairs were not allowed to submit to their own track, nor were their close collaborators, to avoid any conflict of interest. Track chairs could either submit to another track or the 'track chairs' track. The latter was handled by one of the general chairs, and these submissions were reviewed the same way as all other submissions. The general chairs checked after the submission deadline if there was any conflict of interest among the papers submitted to tracks, and if so, the respective paper was moved to another track. The track chairs checked that all papers were submitted anonymously. If not, the authors were asked to resubmit within a couple of days. Track chairs assigned the reviewers and selected the programme committee members in such a way that experts in this area reviewed the papers and there were no conflicts of interest. After at least three reviews were received, the track chairs made a proposal for a decision per paper. The decisions were discussed in a meeting with the general and track chairs to ensure that the decisions were made in a consistent manner per track.

II

The conference tracks of the 2024 edition present the evolution of the topics and the progress in this field. The papers in this proceedings were distributed over the following tracks:

- General E-Government and E-Governance
- General E-Democracy and E-Participation
- Digital Technologies and Sustainable Development
- Digital Society
- Emerging Issues and Innovations
- Smart Cities (Government, Districts, Communities & Regions)
- AI, Data Analytics, and Automated Decision Making
- Artificial Intelligence Governance and its Societal Challenges
- Open Data: Social and Technical Aspects
- Digital and Social Media
- Governance, Digital Legislation and Policy
- Practitioners – Researchers Collaboration

Among the full research paper submissions, 29 papers (empirical and conceptual) were accepted for this year's Springer LNCS EGOV proceedings (vol. 1484). The LNCS ePart proceedings (LNCS vol. 14891) contain the completed research papers from the following tracks: General E-Democracy and e-Participation; Digital Technologies and Sustainable Development; Governance, Digital Legislation, and Policy; Digital and Social Media; Digital Society; Artificial Intelligence Governance and its Societal Challenges. The accepted ongoing work, posters, and practitioners' papers are published in the Joint Proceedings of Ongoing Research, Practitioners, Posters, Workshops, and Projects at EGOV-CeDEM-ePart 2024 conference. The CEUR Workshop Proceedings (CEUR-WS.org) are free, open-access proceedings for Computer Science Workshops.

As in the previous years and per the recommendation of the Paper Awards Committee, under the leadership of Manuel Pedro Rodríguez Bolívar of the University of Granada, Spain, the IFIP EGOV-CeDEM-ePart 2024 conference grants outstanding paper awards in three distinct categories:

- The most interdisciplinary and innovative research contribution
- The most compelling critical research reflection
- The most promising practical concept

The winners in each category were announced during the awards ceremony at the conference.

For the first time, a Junior Faculty School was organized to connect PhD students, postdoctoral students, and junior faculty to the e-government research community to provide advice on how to plan and manage the tenure process and future career and to offer a platform for discussions about theory and methods, as well as networking. The

Junior Faculty School consisted of keynotes, panels, discussions, and interactive sessions designed for junior faculty to be oriented and prepared for the opportunities and challenges ahead.

The IFIP EGOV 2024 conference was hosted in Belgium, in the heart of Europe, by Ghent University *and* KU Leuven. They are both top 100 universities and two of the major universities in Belgium with over 50.000 students and 15.000 employees. Ghent University was founded in 1817, and KU Leuven in 1425. In addition to all that history, the universities also bring a lot of innovation to their vibrant student towns. As part of the conference, the University of Ghent hosted the PhD colloquium and Junior Faculty School in Ghent on 1-2 September. The PhD Colloquium was a full-day event on 1 September, open only for those who were admitted and offered a limited number of PhD bursaries. The Junior Faculty School was a full-day event on 2 September, for sharing experiences to advance the career of young researchers interested in digitalization and government. The conference sessions were hosted on 3-5 September in Leuven at the KU Leuven.

Many people behind the scenes make large events like this conference happen. We would like to thank the members of the Program Committee, the reviewers, and the track chairs for their great efforts in reviewing the submitted papers. We would also like to express our deep gratitude to Joep Crompvoets and his local team at KU Leuven, and Lieselot Danneels and her local team at Ghent University, for hosting the conference.

The papers in this proceedings range from societal to scientific and from rigorous to innovative. We hope you enjoy reading them!

Organization

Conference Chairs

Ida Lindgren, Linköping University, Sweden
Joep Crompvoets, KU Leuven, Belgium
Csaba Csáki, Corvinus University of Budapest, Hungary
Lieselot Danneels, Ghent University, Belgium
Ramon Gil-Garcia, University at Albany, State University of New York, USA
Sara Hofmann, University of Agder, Norway
Marijn Janssen, Delft University of Technology, The Netherlands
Marius Rohde Johannessen, University of South-Eastern Norway
Thomas Lampoltshammer, University for Continuing Education, Austria
Habin Lee, Brunel University London, United Kingdom
Anastasija Nikiforova, Tartu University, Estonia
Peter Parycek, Fraunhofer Fokus, Germany / University for Continuing Education, Austria
Gabriela Viale Pereira, University for Continuing Education, Austria
Gerhard Schwabe, University of Zurich, Switzerland
Anthony Simonofski, University of Namur, Belgium
Efthimios Tambouris, University of Macedonia, Greece
Jolien Ubacht, Delft University of Technology, The Netherlands

Program Committee Chairs

Joep Cromvoets, KU Leuven, Belgium
Csaba Csaki, Corvinus University, Hungary
Lieselot Danneels, Ghent University, Belgium
Roel Dobbe, Delft University of Technology, The Netherlands
David Suenas-Cid, Kozminski University, Poland
Noella Edelmann, Danube University Krems, Austria
Gregor Eibl, Danube University Krems, Austria
Katarina L. Gidlund, Mid Sweden University, Sweden
J. Ramon Gil-Garcia, University at Albany, SUNY, USA
Sara Hofmann, University of Agder, Norway
Marijn Janssen, Delft University of Technology, The Netherlands
Evangelos Kalampokis, University of Macedonia, Greece
Thomas Lampoltshammer, Danube University Krems, Austria
Habin Lee, Brunel University, UK
Katarina Gidlund, Midsweden University, Sweden
Ida Lindgren, Linköping university, Sweden
Euripidis Loukis, University of the Aegean, Greece
Edimara Mezzomo Luciano, PUCRS, Brazil
Francesco Mureddu, Lisbon Council, Belgium

Anastasija Nikiforova, University of Tartu, Estonia
 Anna-Sophie Novak, Danube University Krems, Austria
 Panos Panagiotopoulos, Queen Mary University of London, UK
 Peter Parycek, Danube-University Krems, Austria
 Manuel Pedro Rodríguez Bolívar, University of Granada, Spain
 Marius Rohde Johannessen, University of South-Eastern Norway, Norway
 Anthony Simonofski, University of Namur, Belgium
 Iryna Susha, Utrecht University, The Netherlands
 Efthimios Tambouris University of Macedonia, Greece
 Jolien Ubacht, Delft University of Technology, The Netherlands
 Gabriela Viale Pereira, Danube University Krems, Austria
 Shefali Virkar, Donau-Universität Krems, Austria
 Anneke Zuiderwijk, Delft University of Technology, The Netherlands

Chair of Outstanding Papers Awards

Manuel Pedro Rodríguez Bolívar, University of Granada, Spain
 Noella Edelmann, Danube University Krems, Austria
 Evangelos Kalampokis, University of Macedonia, Greece

PhD Colloquium and Junior Faculty School Chairs

Gabriela Viale Pereira, Danube University Krems, Austria
 Ida Lindgren, Linköping University, Sweden
 J. Ramon Gil-Garcia University at Albany, SUNY, USA

Webmaster

Gilang Ramadhan, Delft University of Technology, The Netherlands

Program Committee

Wirawan Agahari, Delft University of Technology/TPM/ESS, The Netherlands
