PREFACE

DL – The International Workshop on Description Logics

The International Workshop on Description Logics is the main annual event of the description logic research community. It is the forum at which those interested in description logics, from both academia and industry, meet to discuss ideas, share information, and compare experiences. The workshop explicitly welcomes submissions from researchers that are new to the area and provides quality feedback via peer-reviewing, while at the same time being of an inclusive nature with a very high acceptance rate. Inclusion of a paper in the informal (electronic) DL proceedings at CEUR should not preclude the work from later publication at conferences. Further information can be found on the DL web pages at <http://dl.kr.org/>.

This volume contains the papers presented at the 37th International Workshop on Description Logics (DL 2024), held between June 18 and 21, 2024, in Bergen, Norway. Every submission to the workshop received on average three reviews provided by 57 PC members and 3 additional external reviewers.

Overall, the committee decided to accept 11 full papers and 27 extended abstracts. The contents of these papers were presented in 27 oral presentations and 10 posters. The program additionally included three invited talks by Gabriele Kern-Isberner (TU Dortmund University), Ondrej Kuzelka (Czech Technical University Prague), and Camille Bourgaux (DI ENS, ENS, CNRS, PSL University & Inria). We thank all the PC members for their invaluable efforts in providing helpful and informative reviews for all submissions on time.

We want to thank the general chair, Ana Ozaki and her local organisation team consisting of Victor Lacerda and Matteo Magnini for all their efforts in preparing the event locally in Bergen, as well as our publicity co-chairs Victor Lacerda and Andrea Mazzullo for spreading the word. Our local sponsorship chair Guohui Xiao helped us in securing funding to support more PhD students coming to the workshop. Of course, the workshop would not have been possible without the submissions and participation of all the people that make DL such a great community.

We are also very grateful to our sponsors, namely the Center for Perspicuous Computing, the Research Council of Norway, the Norwegian Artificial Intelligence Research Consortium, the Italian Association for Logic Programming, the European Association for Artificial Intelligence, the Center for Trustworthy Data Science and Security, the L. Meltzer Høyskolefond, and the Artificial Intelligence Journal for providing support and committing funds for the event. The list of sponsors, the detailed program, and further information for DL 2024 can be found at our event homepage at <https://dl2024.w.uib.no/>.

Programme Committee

Alessandro Artale	Free University of Bolzano-Bozen
Franz Baader	Technische Universität Dresden
Bartosz Bednarczyk	Technische Universität Dresden & University of Wrocław
Meghyn Bienvenu	University of Bordeaux
Stefan Borgwardt	Technische Universität Dresden
Camille Bourgaux	CNRS, DI ENS
Diego Calvanese	Free University of Bozen-Bolzano
David Carral	LIRMM, Inria, University of Montpellier, CNRS
Giovanni Casini	ISTI - CNR
Jieying Chen	University of Oslo
Gianluca Cima	Sapienza University of Rome
Bernardo Cuenca Grau	University of Oxford
Oliver Fernandez Gil	Technische Universität Dresden
Laura Giordano	DISIT, Università del Piemonte Orientale
Birte Glimm	Universität Ulm
Martin Homola	Comenius University in Bratislava
Yazmin A. Ibanez-Garcia	School of Informatics and Computer Science, Cardiff University
Jean Christoph Jung	TU Dortmund University
Yevgeny Kazakov	The University of Ulm
Stanislav Kikot	Birkbeck College
Roman Kontchakov	Birkbeck, University of London
Patrick Koopmann	Vrije Universiteit Amsterdam
Egor V. Kostylev	University of Oslo
Alisa Kovtunova	Technische Universität Dresden
Francesco Kriegel	Technische Universität Dresden
Markus Krötzsch	Technische Universität Dresden
Oliver Kutz	KRDB, Free University of Bozen-Bolzano
Domenico Lembo	Sapienza University of Rome
Carsten Lutz	Universität Leipzig
Quentin Manière	Universität Leipzig
Andrea Mazzullo	Free University of Bozen-Bolzano
Thomas Meyer	University of Cape Town and CAIR
Barbara Morawska	University of Opole
Filip Murlak	University of Warsaw
Linh Anh Nguyen	Institute of Informatics, University of Warsaw
Ana Ozaki	University of Bergen & University of Oslo
Fabio Papacchini	Lancaster University Leipzig
Rafael Peñaloza	University of Milano-Bicocca
Antonella Poggi	Sapienza University of Rome
Denis Ponomaryov	Ershov Institute of Informatics Systems, Novosibirsk State University
Gianluca Pozzato	University of Torino
Guendalina Righetti	Free University of Bolzano
Sebastian Rudolph	Technische Universität Dresden
Vladislav Ryzhikov	Birkbeck, University of London

Stefan Schlobach	Vrije Universiteit Amsterdam
Bariş Sertkaya	Frankfurt University of Applied Sciences
Viorica Sofronie-Stokkermans	University Koblenz-Landau
Umberto Straccia	ISTI-CNR
David Toman	University of Waterloo
Nicolas Troquard	Gran Sasso Science Institute
Anni-Yasmin Turhan	Paderborn University
Ivan Varzinczak	Univ. Artois and CNRS
Przemysław Andrzej Walega	University of Oxford
Grant Weddell	University of Waterloo
Frank Wolter	University of Liverpool
Guohui Xiao	Department of Information Science and Media Studies, University of Bergen
Michael Zakharyashev	Birkbeck, University of London

Additional Reviewers

Michael Welt	Universität Ulm
Filippo de Bortoli	TU Dresden
Moritz Illich	Universität Ulm

Steering Committee

Alessandro Artale	University of Bozen-Bolzano
Victor Gutierrez-Basulto	Cardiff University
Martin Homola	University of Bratislava
Patrick Koopmann	Vrije Universiteit Amsterdam
Alisa Kovtunova	TU Dresden
Ana Ozaki	University of Oslo
Renate Schmidt	University of Manchester
