## CEUR Workshop Proceedings

Proceedings of the Doctoral Symposium on Natural Language Processing 2024  
(NLP-DS-2024)

### Papers

#### An Approach to a Cost-Effective and Controllable Text Generation Architecture

Ivan Martínez-Murillo ..... 1-8

#### Natural Language Processing Models for Knowledge Discovery in Medical Texts

Eduardo Grande ..... 9-14

#### Analysing Linguistic Markers on Fake News to Enhance the Explainability of Deception Detection Systems

Alba Pérez-Montero ..... 15-23

#### Educational Material to Knowledge Graph Conversion: A Methodology to Enhance Digital Education

Miquel Canal-Esteve ..... 24-32

#### Bias Mitigation in Corpora for LLMs Training Applied to Text Simplification

Victoria Muñoz-García ..... 33-41

#### Natural Language Processing in the Detection and Treatment of Mental Health Issues

Alba María Márquez-Montero ..... 42-50

#### Reusing, Recycling and Reducing Large Models for Developing Green and Responsible Language Technology

Ainhoa Vivel-Cousu ..... 51-59

<b>Towards User-Reliable Machine Translation Evaluation</b>	Sofía García González.....	60-68
<b>Improving AutoML for LLMs via Knowledge-Based Meta-Learning</b>	Ernesto Luis Estevanell-Valladares.....	69-77
<b>Improving Robustness and Reproducibility in Validation of Natural Language Generation Systems</b>	Javier González Corbelle.....	78-86
<b>Evaluation of Large Language Models in Multilingual Settings</b>	Maite Heredia Arribas.....	87-95
<b>Artificial Intelligence and Natural Language Processing Applied to Design</b>	María Villalba.....	96-104
<b>Can Natural Language Processing Technologies Help the Digital Transformation of Local Public Administrations?</b>	Ángel Lloret .....	105-113
<b>Using Argumentation Theory to Fight Misinformation</b>	Blanca Calvo Figueras.....	114-122
<b>Multimodal Emotion Recognition in the Political Domain in Spanish</b>	Ronghao Pan.....	123-131
<b>Analysis of Lexical Ambiguity in Vector Models</b>	Marta Vázquez Abuín.....	132-139
<b>Leveraging Temporal Analysis to Predict the Impact of Political Messages on Social Media in Spanish</b>	Ibai Guillén Pacho.....	140-148
<b>Enhancing Trustworthy in NLP Systems Through Explainability</b>	Santiago González-Silot.....	149-155
<b>Adaptation of Large Language Models for Spanish Text Generation in Responsible AI Problems</b>	María Estrella Vallecillo Rodríguez.....	156-163
<b>Word Sense Disambiguation for Linking Domain-Specific Resources</b>	Lucía Palacios.....	164-172
<b>Separating Linguistic Competence from Factual Knowledge in Large Language Models</b>	Jaime Collado-Montañez.....	173-177
<b>Automatic Medical Knowledge Graph Construction</b>	Joel Pardo-Ferrera.....	178-186
<b>Application of Artificial Intelligence to Knowledge Discovery for the Maintenance and Conservation of Botanical Gardens</b>	Claudia Aguilar-Rajme.....	187-192
<b>Automatic Text Classification using Readability Levels in Galician and Spanish</b>	Sandra Rodríguez Rey.....	193-201

## CEUR Workshop Proceedings

Proceedings of the Doctoral Symposium on Natural Language Processing 2024  
(NLP-DS-2024)

### Preamble

The Spanish Society for Natural Language Processing has organized the 7th edition of the Doctoral Symposium on Natural Language Processing held in Valladolid on September 26, 2024 as part of the [XL International Conference of the Spanish Society for Natural Language Processing \(SEPLN 2024\)](#).

The aim of the Doctoral Symposium is to promote scientific vocations in the field of Language Technologies and Natural Language Processing (NLP). To this end, it organizes a meeting point where PhD students in the area of NLP can present their work. Moreover, they receive constructive feedback and guidance from experienced researchers in their area of work.

In the 2024 edition, 24 PhD students participated. All participants submitted a paper describing their proposals, all of them being accepted after review by two members of the program committee and by the organizing committee.
