Proceedings of the Workshop

November 19-20, 2025

Almaty, Kazakhstan

Preface

The Workshop on Software and Knowledge Engineering (SNE 2025) was successfully held on November 19-20, 2025, in Almaty, Kazakhstan at the International Information Technology University in the offline format.

The goal of the Workshop on Software and Knowledge Engineering was to explore methods and tools for designing intelligent software systems by integrating software engineering principles with knowledge representation and reasoning techniques.

The Workshop received 20 submissions, and 14 of them were selected for publication. Scientists from all over Kazakhstan, as well as representatives of the industry, took an active part in the event. In addition, researchers from Ukraine, Poland and Germany also made their contributions.

We would like to express our gratitude and appreciation to all the participants of SNE 2025 and the Organizing and Program Committee.
