

# ICCBR 2026 Workshop Proceedings and Doctoral Consortium Proceedings (Combined Volume)

I am pleased to present the combined volume that include both the workshop proceedings and the Doctoral Consortium proceedings of the 34rd International Conference on Case-Based Reasoning (ICCBR 2026) held from August 13 - August 16 2026, in Bremen, Germany. The combined volume includes the following contributions:

- **1st Workshop on Memory-Based Reasoning for Responsible GenAI.** *Chairs: Ralph Bergmann, Marta Caro-Martínez, David Leake, Nirmalie Wiratunga.*
- **ICCBR Doctoral Consortium 2026.** *Chairs: Jean Lieber, Mirjam Minor.*

I would like to express my sincere gratitude to everyone who contributed to the success of the ICCBR 2026 Workshop and Doctoral Consortium. I would like to thank all the authors, speakers, and reviewers for their valuable contributions and for helping ensure the high quality of these proceedings. A special thank you goes to my fellow workshop organisers for being such an outstanding team. Their experience, ideas, and continuous support were invaluable throughout the organisation of the workshop. I would also like to thank the Doctoral Consortium chairs for their dedication in organising the DC, and for their kindness, and willingness to help throughout the process. I am also grateful to the ICCBR 2026 programme chairs for their continuous support and assistance throughout the organisation of both the workshop and the edition of these proceedings.

I hope that participants enjoyed this year's Workshop and Doctoral Consortium, and that this combined volume of the Workshop Proceedings and the Doctoral Consortium Proceedings will serve as a valuable resource for advancing research in the CBR community.

*Marta Caro-Martínez*
